Subject Fw: THE POOR PEOPLE ARE FORGOTTEN IN THESE  
RULES - attn peter g mccabe+

i cannot attend the below meetings but do have comments for the bar and court rules, ''

amicus briefs should be able to be submitted by poor people without having to pay hundreds of dollars when they see a case they have input on. the court should be able to hear from poor people as well as the rich people who can hire attorneys to speak for them. the poor people are presently stifled by us courts and treated always with disdain.

the taxpayers want us govt employees to be sued for all they own they they get tax dollars in corrupt fashion. taxpayers want the money back. taxpayers want the rules to say the corrupt govt officials go to jail, paying for their own jail costs and they want these corrupt govt officials to lose their entire pensions and entire life savings. the corruption situation in govt has reached a zenith. nobody is protecting taxpayers anymore.

a floppy disc version of a document should be allowed and should be easily gotten by poor people for low price.

rule 30 - allow use by public of audio tapes in the courtroom. of course this should be allowed.

rule 33 and 36 - it is time that discovery responses are attributed mandatorily to the person signing the document and if someone else has been a mouthpiece for a response, that mandatorily must be noted.

re pro se litigants--some pro ses should be sitting in on the committee making rules for pro se litigants. such committee should not be making rules in absentia. i volunteer.

gender discrimination against females, old people and discrimination against poor people also exists in the nations' courts and must be stamped out. it is more rampant than racial discrimination. everybody is afraid of racial discrimination but the other discriminatory acts are gotten away with every day of the week. a new suggestion needs immediate action.
